

Welders

Autostar MIG 160

Key Features

- Highly portable compact MIG welder
- Takes 5 Kg wire spools 0.6mm - 0.8mm
- Ideal for the bodyshop and automotive workshop as well as site work
- Welds steel, stainless steel, aluminium and flux cored wire
- Professional inverter with high duty cycle for extended use but with low input power requirement
- Digital control gives excellent welding conditions - very easy to set and use

Input Voltage (V)	230
Welding Current (A)	25 -160
Duty Cycle @ 35% (A)	160
Weight (Kg)	12.5

Complete with

- Euro connect MIG torch
- Work return lead & clamp
- Gas regulator

Optional

- Trolley
Order Code: AS-T
- Trolley
Order Code: JIT-01

Order Code: AS-160

Eurostar MIG 200

Key Features

- The Eurostar MIG 200 with its powerful output is a rugged machine suitable for heavy use in a car repair shop or in light maintenance fields
- Easily moved around the work place this machine can weld steel, stainless steel, aluminium and perform MIG BRAZING
- The cabinet can house 5 Kg or 15 Kg reels of wire and is equipped with 0.6mm & 0.8mm feed rolls
- Electronic wire speed control - 6 voltage steps

Input Voltage (V)	230
Welding Current (A)	30 - 200
Duty Cycle @ 20% (A)	180
Weight (Kg)	40

Complete with

- 3m Euro connect torch
- Work return lead
- Gas regulator

Order Code: Euro 200
